## SEEK HELP OF SUNDAY SCHOOLS

Shall Calumet and Laurium Playgrounds Be Opened on Sunday?

Shall the playgrounds of Calumet be opened on Sunday? This is the question that the Calumet Playground association has placed squarely before the Sunday schools of Calumet and the question which the schools will be asked to help in solving. The Playground association desires the fullest possible co-operation from the Sunday schools and would be pleased to receive public expressions on the subject.

The situation in Calumet is thus described by one who has been very active in the playground movement locally:

"It is not the purpose or desire of the Playground association to encourage desecration of the Sabbath. Still it is recognized that in Red Jacket, Calumet, Laurium and other locations the play of the children continues uninterrupted, and because of the fact that the greater number of children have no yard or lot which serves as a playground, the greater part of the play is confined to the main streets and side streets. This, in fact, is the playground of the children Sunday and every other day while not attending school.

"Shall the children be permitted to continue their play on the street or shall they be encouraged by the Sunday schools to seek out the playgrounds in the respective villages and under competent supervision enjoy quiet games, exercises, little songs or games which the ingenuity of the Sunday school workers of Calumet can devise as a substitute for street play? Where will the children be likely to encounter the most harmful influences?"

"We are anxious to obtain the views of Sunday school workers. Several to whom the matter has been suggested heartily endorse the plan to open the playgrounds on Sunday as well as other days of the week and have volunteered their assistance in the supervision of the games. They feel that the full privileges of the playgrounds should be accorded every day of the week to the children of Calumet and Laurium.

"The question is open to discussion. We are anxious to secure the views of all who are interested."

#### CO. A. RECEIVES CAMP ORDERS.

According to the order, the engineers will camp with the Second regiment and the field hospital corps at Grayling from August 3 to 12, inclusive. The Grayling camp is the site of the new state reservation that was laid out last year and it is declared by experts to be the best situated for military maneuvers of any in the country.

This year's camp will be in three divisions, one for each regiment. The Houghton Light Infantry will camp with the Third regiment, including Troops A and A. Cavalry and Ambulance company No. 2, from August 12 to 21 and the First regiment will camp from August 22 to 31, inclusive. The last camp will include the first Battery, field artillery, and Ambulance Co. No. 1.

Every infantry must take at least two officers and 25 men, according to the orders, and the same figures will apply to the Engineers and Signal corps. The battery must have three officers and 50 men, the Ambulance company two officers and 21 men and the bands, 16 men each.

## MOTOR CYCLISTS ORGANIZE CLUB

Local Association to Affiliate With American Federation

Calumet, Keweenaw and Torch Lake motor cyclists, to the number of sixty, met in the Red Jacket town hall yesterday afternoon when initial steps toward the organization of a motor association were taken. The club was tentatively organized with Ray Forster, chairman; Joseph Wershey, treasurer, and William Galipeau, secretary. A committee on rules and organization, consisting of Edgar James of Gay, Joseph Garreau of Hubbell, and John Grindatti of Calumet, was appointed and a report will be submitted at a meeting to be held within the next three weeks when the organization will be perfected.

The objects of the club are manifold, but its primary purpose is to enroll beginners, who, generally, are the cause of much of the agitation against motor cyclists. Speeding and unnecessary noises will be banned and every member will be pledged to keep within the bounds of speed ordinances as well as refrain from noise while riding through towns and cities. Another object of the organization is to bring to task auto owners who refuse to give motor cyclists the right of way. Action of many owners of automobiles has aroused the ire of cyclists to the end that they will demand courteous treatment. Furthermore, they declare they pay the same fee for a state license, \$3 per year, and thereby they are entitled to the same road privileges as auto owners.

The first step of the club after the organization is perfected, will be to affiliate with the American Federation of Motorcyclists. There are approximately 200 cyclists in the county and the club enjoys the prospect of becoming a strong and influential organization.

## The Warren-Elgin Co-operative Watch Purchasing Club Plan

#### WHAT IT IS:—

We are making it easy for financially responsible persons to get watches of the finest quality at the lowest cash prices while paying for them at their convenience. If you bought it anywhere else at this price you would have to pay cash for it.

So, you will see, we are giving both the advantage of the cash price and the convenience in payments. We are able to do this because we are doing it on a large, almost wholesale, scale; that is to say, we are organizing a club of co-operative purchasers. We are getting twenty-five financially responsible people to unite in purchasing twenty-five watches of the same grade and quality. You can readily see that this volume of business enables us to make this close price, which we could not afford to do if we were selling on time to one individual. In forming this club we are obliged to be very particularly and circumspect in our selection of members, making sure that every one of them is financially responsible. As a result of this policy there are no losses, and consequently no high price. We can afford to sell on time as cheap as any merchant selling exclusively for cash.

No lottery, no gamble, no chance of any kind. After the first payment is made you get the watch to wear. No long waits, no inconvenience whatever.

Come in and see the watches and join the Club today.
